DESIGN • QUALITY • TIME

We bring a fresh approach to design incorporating modern technology into everyday objects. Sometimes life can be complicated and technology too intrusive, therefore by keeping our product lines simple yet engaging and keeping our products up to date with technology, as well as being aesthetically pleasing has kept us driven, and the reason why our products have been popular around the world.

We thrive on seeking and creating the out of the ordinary, which enforces the foundation of our ethos, escape the boring: design for a better life.

Paul Sun

clickclock

time at the click of your fingers

We are fascinated by time and we have a passion for clocks. We think time can be smart and stylish, as well as functional.

The Click Clock can tell you the time, date and temperature alternately on a wood-effect block at the click of your fingers. It automatically switches off when the room is quiet, lighting up again when the alarm goes off or as a response to clicked fingers or clapped hands. The numbers seem to float on the lovely wooden block, but that's just half the magic of these clocks.

The Click Clock are available in; cube, brick, slab and square designs to fit any interior.

cube

SQUARE

When you wake up in the middle of the night, sometimes you want to see the time and other times you really don't. Sometimes it's gloriously rewarding to know that you still have 8 hours until you need to be up. Other times you've been hit with a relentless bout of insomnia and you lie there staring, bloodshot-eyed, as the clock painfully ticks away, mocking your mental anguish.

We're all slaves to time, but now it's on your terms with this new designed SQUARE CLICK CLOCK. Just click your fingers or gently tap your bedside table and the time and full calendar will appear. No longer does your room have to be illuminated by a constant blinking digital glow, nor do you have to fumble to find your smartphone in the darkness.

Best of all, with its PORTABLE feature with built-in RECHARGEABLE lithium battery, it can be placed wherever you like. The bedroom is not the only place to put it.. Showing it off in your living room, kitchen (if you would like to) or anywhere else won't be an issue now!

- 100 years full calendar display
- 3 different alarm setting with snooze function
- week or weekend day alarm setting
- internal memory battery inside to keep to keep your custom settings
- automatic dimmer function: The LED display dims automatically between 9:00pm and 7:00am everyday.
- 12 / 24 hours format can be selected
- product weight: 850g
