DESIGN·QUALITY·TIME

product catalogue

We bring a fresh approach to design incorporating modern technology into everyday objects. Sometimes life can be complicated and technology too intrusive, therefore by keeping our product lines simple yet engaging and keeping our products up to date with technology, as well as being aesthetically pleasing has kept us driven, and the reason why products have been so successful around the world.

We thrive on seeking and creating the out of the ordinary, which enforces the foundation of our ethos, escape the boring: design for a better life.

Paul Sun

clickclock™
time at the click of your fingers

We are fascinated by time and we have a passion for clocks. We think time can be smart, stylish and functional as well.

The click clock can tell you the time, date and temperature alternately on a wood-effect block at the click of your fingers. It automatically switches off when the room is quiet, lighting up again when the alarm goes off or as a response to clicked fingers or clapped hands. The numbers seem to float on the lovely wooden block, but that's just half the magic of these clocks.

The Click Clock are available in; cube, brick, slab and square designs to fit into different interiors.

cube

- displays time, date and temperature alternately
- 12/24hr and °C/°F formats can be selected
- automatic dimmer function

SLAB WALNUT CLICK CLOCK

PRODUCT CODE: GK06G8

LED COLOUR: GREEN

wall click clock™

The NEW Wall Click Clock offers an unusual contrast to the conventional looking wall clock.

Using the floating natural wood effect surface, it can light up with the time by clapping or clicking you fingers and magically disappears when quiet. The contemporary design bridges the gap between modern and traditional without being flashy or tacky and will be the topic of conversation at your next home or office party .

Walnut Wall Click Clock

POWERPAD

the thinnest power bank in the world

reddot design award winner

With the world's THINNEST and greatest alloy material finish design (5.2mm thickness only), The Powerpad can boost your iPad/tablet or smartphone battery life and can slide into your iPad case, conveniently backing up your iPad/tablet whenever and wherever you need it.

Packing a long-lasting 8000mAh battery, you can charge your iPad/tablet 1-1.5 times and most smartphones 4-5 times.

That's not all, the Powerpad itself comes with its own high quality made case, for a stylish independent carrying convenience; when you use it for your iPad mini or smartphones, and can't carry the two together in one bag. Choose your carry style and feel the freedom of extended battery.

Product Code: GK-PP2

Product Name: Powerpad Blue

Product Feature / Part One

- thickness: 5.2mm only (iPad 13.4mm, iPad2 8.8mm, iPad Air 7.5mm, iPad Air2 5.2mm)
- recharge your tablets or smartphones several times on the go
- two sliding-design USB ports for charging multiple devices at once
- includes USB adapter wire (50mm long) to recharge the powerpad itself via your smartphone or iPad USB charging adapter
- industry-leading 8000mAh polymer battery
- the world's thinnest design and it's super slim

Product Code: GK-PP1
Product Name: Powerpad Black

Product Feature / Part 2

- easily re-charged via USB adapter
- smart LED indication light to indicate its power status/balance
- input: DC5V, 0.5A-2A (max); Output 1: DC5V, 2.1A ; Output 2: DC5V, 2.1A
- product weight: 300g
- charging stats: iPad/tablets for 1-1.5 times and most smartphones 4-5 times
- product material : Ai-Mn alloy
- product measurement: 213 x 140 x 5.2mm
