# Smart Booklight

NEW

The Gingko smart book light is definitely a great additional piece of art to any home; when closed, this smart Book Light masquerades a laser-cut wooden book, but when opened it transforms into a sculptural light emitting a wonderful ambient white soft LED light through the pages.

The beautiful, exquisite design opens to full 360 degrees with cleverly concealed magnets and the lovely soft touch papers are tear-proof and water-resistant that are lightened up by long-lasting LED lights. Inside the laser-cut wood cover lies an interior lamp body made from durable, water-resistant Tyvek "pages" containing high-performing LEDs.

The dynamic, multifunctional light can be opened to 360 degrees and comes with a micro-USB charger. It is assembled by hand and has a battery life of up to eight hours.

- LED life-span: about 50000hrs
- colour temperature: 2700K for warm light version and 4500K for cool white light version
- output: 400 lumen
- power supply: in built rechargeable Lithium Polymer
- battery life: 6-8 hours in constant use
