

gingko
DESIGN - QUALITY - TIME

About Gingko

Gingko is an British Brand born in 2011 and was founded by Paul Sun and his wife Natalie Sun with the objective of designing and manufacturing high-end, yet stylish and functional products for home and design-led gifts.

we bring a fresh approach to design incorporating modern technology into everyday objects. Sometimes life can be complicated and technology too intrusive. Therefore by keeping our product lines simple yet engaging and keeping our products up to date with technology, as well as being aesthetically pleasing has kept us driven and inspired us to design our first product range - the Click Clock, which is now a very popular design around the world.

DESIGN, QUALITY & TIME are our design ethos when every Gingko object is born. We give every item an ultimate stylish look in a minimalist design, craft it with our passion and love in our best standard of quality, and design it to last when time goes by or fashion changes.

We thrive on seeking and creating the out of the ordinary, which enforces the foundation of our ethos, escape the boring: design for a better and smarter life.

clickclock™
time at the click of your fingers

We're fascinated by time and we have a passion for clocks. We think time can be smart, stylish and functional as well.

The click clock can tell you the time, date and temperature alternately on a wood/aluminium/marble effect block at the click of your fingers. It automatically switches itself off when the room is quiet, lighting up again when the alarm goes off or as a response to clicked fingers, clapped hands or even a gentle tap. The numbers seem to float on this lovely block, but that's just half magic of these clocks.

The Click Clock Collection are available in Cube (as left image), Brick, Slab sizes, plus a round version for wall purpose. Each size collection are available in different material finishes to fit into different interiors.

Small but smart, simple but clever.

Cube Beech Click Clock

cube

in colours

Housed in a bright colourful and sleek rubberised cube and designed with the ingenious **touch sensitive snooze** and **gravity controlled alarm**, the new colourful Gravity Cube Click Clock collection can make your every minute in bed matter. To snooze simply touch the soft top of this cube and to turn off the alarm, just turn it over onto any side. It's a great way to stop you fumbling in the dark looking for the snooze or off switch and make your every morning start with fun.

The coloured Cube Click Clock still incorporates the same **sound activated LED display technology** as the classical wood cube click clock ranges and it displays the time, date and temperature alternately at the click of your fingers or clap of your hands.

brick

We're all slaves to time, but now it's on your terms with these stylish Brick Click Clocks. Just click your fingers or gently tap your bedside table and the time will appear and looks like the time is magically floating on these lovely bricks. No longer does your room have to be illuminated by a constant blinking digital glow, nor do you have to fumble to find your smartphone in the darkness.

The Brick Click Clock can display the time, date and temperature alternatively or you can also set it on permanent time display like the cube. Best of all, due to its portable feature with a integrated rechargeable lithium battery, it can be placed wherever you like with no need to worry about too many wires around your room any more.

Octagon One

Rechargeable Desk Light

The Octagon One desk lamp is the winner of 2018 Gift of the Year and also the Judge's choice award in the U.K. The Gift of the year award is the most highly respected award for home and gift product industry in Britain.

The Octagon One desk light combines the best of simple and natural effect finish to achieve its modern industrial aesthetic. The focal point of the design is a beautifully shaped Octagon wood/marble finish base with touch control button and in-built rechargeable battery which makes it to be a totally wireless desk lamp and allows it to be positioned at three different angles. Mounted in the base is a milled aluminium casing but in wood finish which contains 36 high quality LED light bead with light diffusing cover.

Octagon One is a purposeful yet organic design, as well as a warm addition to any desk or office space.

- CRI: RA>90
- 4 levels of brightness and 3 different angle displays
- touch sensitive control button on the base for power control and brightness level adjustment

nice to meet
the smart booklight

Smart BookLight rechargeable

The Smart Book Light is definitely a great additional piece of art to any home; when closed, this smart Book Light masquerades a laser-cut wooden book, but when opened it transforms into a sculptural light emitting a wonderful ambient white soft LED light through the pages.

The beautiful, exquisite design opens to full 360 degrees with cleverly concealed magnets and the lovely soft touch papers are tear-proof and water-resistant that are lightened up by long-lasting LED lights. Inside the laser-cut wood cover lies an interior lamp body made from durable, water-resistant Tyvek "pages" containing high-performing LEDs.

The dynamic, multifunctional light can be opened to 360 degrees and comes with a micro-USB charger. It is assembled by hand and has a battery life of up to eight hours.

- LED life-span: about 50000hrs
- colour temperature: 2700K for warm light version and 4500K for cool white light version
- output: 400 lumen
- power supply: in built rechargeable Lithium Polymer
- battery life: 6-8 hours in constant use

- charging time: 4 - 5 hours
- can be opened up to 360 degrees
- magnetic covers so it can be attached to any metal object on the wall etc
- product Material: maple wood and water-resistant Tyvek paper

Maple Wood Finish
available in both large and min size
In cool white light version only

Walnut Wood Finish
available in both large and mini size in

Hey,
what if this clock can display your own message as well?

11:53:56

Message ClickClock

Surprise a loved one, advertise for your shop or simply set a reminder message to wake up to with this super cool **calendar** message alarm clock. With sound activated display, your time and personal message can light up in an instant or display permanently if you wish. A simple, yet eye-catching digital design with a personal touch, all on a natural wood-effect block makes this clock totally unique and special.

wall click clock™

The Wall Click Clock offers an unusual contrast to the conventional looking wall clock.

Using the floating natural wood effect surface, it can light up with the time by clapping or clicking your fingers and magically disappear when quiet. The contemporary design bridges the gap between modern and traditional without being flashy or tacky and will be the topic of conversation at your next home or office party.

- display time, date and temperature alternately
- LED display automatically switches off when it's quiet and lights up as a response to a clap, touch, or clicked fingers
- 12/24 hours clock and Celsius or Fahrenheit indoor temperature display
- European or American date format display setting
- auto dimmer
- permanent time display display setting available
- powered by integrated rechargeable lithium battery to have a portable display (plug charging adapter included)

- battery life after fully charged : 5-7 days in permanent display and 2-3 months in sound activated display.
- charging time: 3-4 hours (or can permanently plugged in)
- in-built internal memory battery to keep all your custom settings
- regular alarm with 5 or 7 days alarm setting
- product material: MDF wood with walnut wood effect/aluminium effect veneer Finish
- product size: 250mm diameter in 45mm thick
- product weight: 1200 g

Walnut Wall Click Clock

Analogue clickClock™

Inspired from the nature of simplicity and the look of a traditional analogue clock face, the NEW Analogue Click Clock designed by Gingko has a ultra-stylish and contemporary look. The cutting edge and aesthetical design makes it stand out from any traditional or digital analogue clock crowd and it certainly catches people's attention no matter where you put it, in your sitting room, office, kitchen or lounge .

The Analogue Click Clock can be placed on the table/shelf, or it can also be wall mounted. It meets people's desire for adding an unusual and aesthetically pleasing objet d'art in their living or working space, as well as telling the time in a very inspiring way.

Plus, the second dot moves every second on the circle face and looks like it's magically dancing on this beautiful piece of design, which makes it even more inspiring and appealing.

The Analogue Click Clock still features an alarm and sound activated functions, the same as our other click clocks. It can also be set to display permanently.

Analog Click Clock
Collection

Available in Ash, Black, Aluminium/Grey, Walnut

- time display in a traditional analogue face combining with the modern and latest LED display technology
- Analogue display face automatically switches off when it's quiet and light up as a response to clicked fingers or clapped hands, or it can be set display permanently

- product weight: 1200 g

radio clickclock™

The Radio Click Clock - strong, but certainly not silent.. The clean and uncomplicated design will certainly still grab yours attention and stands out from the radio crowd. The user friendly, on screen LED clock, FM frequency display or alarm time's floating appearance, contrasts against the natural and realistic material designs, that gives it a modern and mysterious edge. Wake up to the delightful stereo sounding radio from the beautifully lined-up 49 speaker dots and snooze to your hearts content with a simple press of the aluminium finished tuning button on top.

The Radio Click Clock also still includes all the fantastic features of our other Click Clock ranges- a clap of your hands or click of your fingers and the display magically lights up for a few seconds with the time, date and temperature and disappear while it's quiet when the radio is not in use.

- FM Radio with on screen frequency display
- automatic channel searching or manual tuning
- display time, date and temperature alternately or only on permanent time display
- on screen alarm time display
- radio or buzzer alarm option and 5 or 7 days alarm setting
- sound activated display or permanently stays on
- 12/24H clock and Celsius or Fahrenheit temperate display

- European or American date display
- LED display automatically dims by half between 9pm and 7am
- power supply: built-in 2000mAh rechargeable battery or wall plug adapter
- battery life: 7-8 hours when radio is constantly in use; 10-14 days when clock is on permanent display setting and 3-4 months in sound activated display setting
- in-built internal memory battery to keep all your custom settings
- product material: wood with wood/aluminium/leather effect veneer finish
- product size: L: 17.9 x W: 5.4 x H: 10.5 cm
- product weight: 850 g

Quiet...
let's listen and relax

Halo One | better in one

Halo One is an original, modern, and breathtakingly designed Bluetooth/NFC speaker from Gingko. The aesthetically and fashionably shaped sound box reveals elegant curves and wood texture and delivers smooth sense of touch and phenomenal audio quality.

Halo One meets people's desire for adding an unusual, inspiring, and aesthetic table art in their living or working space, as well as seriously improving your listening experience from the two 1" tweeters with amazing stereo sound.

Plus, the touch sensitive control panel built underneath the smooth surface of the sound box and powered by built-in rechargeable lithium-polymer battery make your operating experience more enjoyable. To switch on Halo One or to adjust the sound volume, just slide up or down with one finger on the panel and it feels like your finger is dancing on this beautiful shaped sound box.
